

LIFE SCIENCES COMMERCIALIZATION LECTURE SERIES

November 19, 2009

4:00 PM - 5:00 PM, 2nd Floor

New York State Center of Excellence in Bioinformatics and Life Sciences
701 Ellicott Street, Buffalo, NY 14203

“Vybion: The Successful Morphing of a Contract Research Organization into a Therapeutics Company”

Presenter:

Lee A. Henderson, Ph.D.
President & CEO - Vybion, Inc.

Vybion is a development stage biopharmaceutical company with a proprietary human monoclonal antibody development platform, called ProCode, and an in-licensed antibody drug called CoFab. Gain perspectives on how this firm is utilizing its expertise and technology to provide high value CRO services to industry clients while simultaneously developing its own therapeutic products. Vybion has leveraged grants, investment and a relationship with Cornell to execute this type of business plan strategy.

Lecture Followed By Beakers 'n Beer, 5PM - 7PM
DoubleTree Club Hotel, 125 High Street
Free beer, wings, and networking!
Sponsored by the Buffalo Niagara Medical Campus
